Pine Lake Cemetery Highlights: Laura Todd Harger

On October 5, Pine Lake Cemetery Tour volunteer docents will highlight notable community member stories. Laura Todd Harger was elected West Bloomfield Township's first female clerk at age 43, in 1919. However, she could not even vote until the fall of 1920, when the 19th amendment to the United States Constitution extending voting rights to women became effective.

Window(s) to the Future at St. Mary's Academic Building

A 1905 postcard donated by Steve Hinzman of Wixom prompted another look at the majestic Academic Building on the Orchard Lake Schools campus, home of St. Mary's Preparatory, on Orchard Lake.

1905 MMA Postcard

The three-story building was the largest on the campus, one of 19 originally built on the 112 acre site by the Michigan Military Academy and completed in 1890. Its primary purpose was for classrooms and labs, offices for school officials and a library that contained over two thousand books. After the closing of the academy in 1909, it became the Orchard Lake Schools bookstore, offices, library, biology lab, chemistry and physics lab, employee residences and faculty apartments. Later the building was used as the Chancellor's office, business offices, switchboard, and St. Mary's offices for the President, Academic Dean, Admissions, Registrar, and rooms for student instruction.

We have completed work on the Michigan Arts & Culture Council and National Endowment for the Arts grant to digitize some of the Museum's collections and update existing digitized collections. GWBHS digital database with these new additions online for free at GWBHS.PastPerfectOnline.com.

GWBHS is always looking for new volunteers. If you are 18+ and interested in sharing local history with the community, consider becoming an Open House Host. Training is provided! View more volunteer opportunities at GWBHS.org/Support/Volunteer/ or contact me at anna@gwbhs.org for details.

Window(s) to the Future at St. Mary's Academic Building (cont.)

A major renovation was done in 2018, funded by Clarence and Lillian Constantakis, (Clarence was a St. Mary's Prep graduate in the 1950s.) It is now called the Clarence and Lillian Constantakis St. Mary's Preparatory Building. Today, the building houses a student lounge, computer lab and the Principal's and secretarial offices.

GWBHS member and 1972 St. Mary's graduate, Paul Mellerowicz, salvaged one of the old windows in its frame

The newly renovated Academic Building, with the Constantakis namesake

during construction. An upper section with the top arch is now on display on the porch of the Orchard Lake Museum. According to Mellerowicz, the new windows were made by a company in Poland for an exact fit in the opening, requiring no filler. Mellerowicz has an extensive collection of photos of the entire Orchard Lake campus buildings, from its day of the military academy to today.
